

ENVIROGREEN 2000 ALL PURPOSE LAWN MIX

- Excellent weed control
- Excellent drought tolerance
- Fast establishment

APPLICATION RATE
2.5-3 kg/100m², 5-6 lbs/1,000ft²

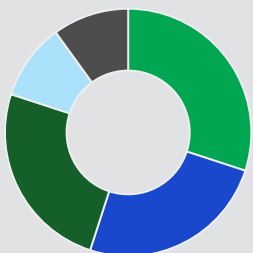

GERMINATION
7-21 days

DESCRIPTION
ENVIROGREEN 2000 is designed for overseeding an existing lawn or establishing a new lawn. It is designed to meet the strict environmental management/IPM requirements required in municipalities today.

Whether managing a sports field, park, home lawn, commercial property or golf course, ENVIROGREEN 2000 will provide a fast germinating, quick establishing, high density, low maintenance stand. ENVIROGREEN 2000 contains a higher percentage of perennial ryegrass to provide a natural solution for weed competition. Do not seed at less than recommended seeding rate to ensure adequate turf development and coverage.
