

FUTURA SPORT TURF MIX

- Quick germination
- Dense growth habit
- Dark green colour

APPLICATION RATE

3 kg/100m², 6.5 lbs/1,000ft²

GERMINATION

5-21 days

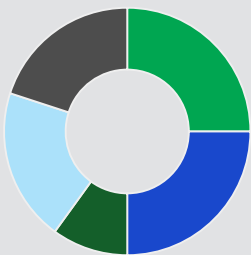

DESCRIPTION

FUTURA SPORT is a high performing DLF mixture which includes varieties that have consistently performed on non irrigated surfaces. In addition perennial ryegrass provides quick germination, summer stress tolerance and winter hardiness.

Developed for athletic fields and high traffic areas that require deep roots, wear resistance and toughness that only FUTURA SPORT can deliver. FUTURA SPORT is tough and has outstanding competitiveness in forcing out weeds.
