

PERFECTION ALL PURPOSE LAWN MIX

- Attractive, deep green colour
- Overseed mid to high quality lawns
- Produces a high density turf

APPLICATION RATE

1.7 kg/100m², 3.5 lbs/1,000ft²

GERMINATION

7-21 days

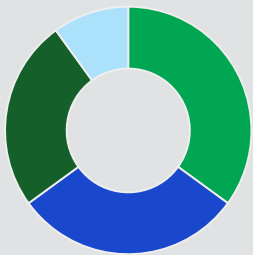

DESCRIPTION

PERFECTION is ideal for home and commercial use. It is also used for overseeding mid to high quality lawns. PERFECTION will produce a turf of medium to high density with an attractive, deep green colour. Use PERFECTION where a balanced mixture is required.

PERFECTION benefits from good weed control throughout establishment and dethatching every second season. Should be seeded on sunny, open areas or partial shade (40% reduced sunlight maximum). Fertilize at medium to high levels of nitrogen annually (i.e. 1.5 – 2 kg/100m²).

MIX COMPONENTS

35%	Certified Perennial Ryegrass
30%	Certified Kentucky Bluegrass #1
25%	Certified Creeping Red Fescue
10%	Certified Kentucky Bluegrass #2
